Merry Christmas

VOLUME III, No. 9

Monday, December 22, 1980

Santa Claus demonstrated he is more than a maker of toys Tuesday evening when he accompanied students at the Archie Stouffer Elementary School Christmas concert. Santa greeted the younger children in the audience before taking his place before the piano. More photos of the concert, Christmas art and writing by the school children, and greetings from area merchants can be found in this week's second section.

Charge suggested for water from public tap

A suggestion that water from the public tap by the firehall be dispensed on a metered basis has drawn mixed reaction from the members of Anson, Hindon and Minden Township council.

The idea was proposed at the December 17 meeting of the council by fire chief Deac Jackson on behalf of the

members of the municipality's fire brigade.

Jackson suggested that a metered tap be installed in place of the present tap and that users be required to insert, for example, ten cents for a one minute run of water. The spokesman estimated that five gallons of water could be taken from the tap in that time.

He told the meeting the firemen would be willing to pay for the tap and its installation and maintain it after it is in place. He said that once enough revenue had been collected to cover the cost of the equipment and the installation, the brigade would be willing to split the

(more on page 2)

Water and sewer rate increase likely in 1981

Minden water and sewer users will probably be facing another rate increase in 1981. That news was contained in a report to Anson, Hindon, and Minden Township council prepared by Peter Carroll of MacGillivray and Company, the municipality's chartered accountants. The report was presented at the December 17 meeting.

According to Carroll the township will have to raise the water rates to help cover the deficit incurred by the system in the last three years. That deficit currently stands at \$33,000.

Earlier this year the council added a surcharge to the water rates. The extra billing raised a storm of protest from village residents, with a number indicating they would not pay the extra charge.

Carroll appeared before council to give an explanation of the details outlining the costs of the operation of the sewer and water system and how the current deficit was created. (A report on this aspect of Carroll's discussion with the council will appear in next week's edition of The Times).

With regard to raising the water and sewer rates, Carroll told the council that the provincial average for these two charges, two years ago, was \$240 per year. He noted that the figure varies according to the size of the construction debt. However, he also pointed out that the charge in Minden per household was \$169, well below the provincial figure. "The council must address raising the rates in the new year," the accountant told the councillors.

He also suggested that the council consider applying a portion of the unconditional grant received from the province each year to the cost of operating the water and sewer system. He noted that this yearly grant was based on funds collected by the municipality through taxes, water and sewer rates and other charges. He said that since a portion of the grant should be applied to help support the costs of those systems.

The unconditional grant

from the province is approximately \$130,000, Carroll stated. He suggested \$20,000 could be used for water and sewer purposes.

The accountant also suggested that the council take its case to the provincial government. He said as far as he knew there was no assistance programs available to the municipality, however, he said that if political pressure were brought to bear on officials in Queen's Park, funding might be found to reduce the debt being carried by the water system.

While the municipality owns the water system in the village, the sewer system is owned by the Ministry of the Environment and the township pays a fee for the processing which takes place there. The township was

informed by the ministry that the rate for sewage treatment would be increased in 1981. It was suggested by the MOE that adjustments be made to sewer charges to reflect these increases.

The council has asked Carroll for a complete report on the financial problems of the municipality's water and sewer system to help identify the source of the deficit and to

determine exactly how much the municipality owes with regard to the water system. That report will be ready sometime in the new year. In the meantime the councillors will have to determine what the higher rates for 1981 will be to cover the costs of operating the two systems.

More next week.

Objection raised to causeway plan

All property owners on Horseshoe Lake do not favour the installation of new culverts in the Schuyler's Island causeway.

That was the message contained in a letter to Anson, Hindon and Minden Township council read at the December 17 meeting. The letter was from Mrs. Irene Robb. She is the only permanent resident on the island and expressed concern for the stability of the causeway if it is disturbed to install new culverts.

A group of property owners on the lake have requested the council consider installing larger culverts as the water trapped behind the causeway is deteriorating. The group approached council a number of times earlier this year requesting action. At that time the proposal was examined by the municipality's consulting engineer who determined there would be little benefit in enlarging or repositioning the existing culverts.

Members of the 1979-80 council have also expressed concern that the footing under the causeway may be too fragile to be tampered with

and that if any digging takes place, it could jeopardize the causeway.

Mrs. Robb, in her letter to council, said the request is being made by only a small group on the lake and that the other cottagers, unless they subscribe to the local paper, would be unaware that the suggestion had been made. She said the matter had not been discussed at the Horseshoe Lake Property Owners' Association annual meeting in July. She also claimed the people who are requesting the culverts have no authority to commit association funds to the project.

The municipality has indicated that the association or local property owners would probably have to pay for a part of the work and tests required.

Noting that the work cannot be carried out until spring, Reeve Lloyd Walker suggested the council notify those requesting the work that an objection to the proposal has been received. "They should be aware that everyone is not in favour of the

Merry Christmas

FROM THE CHAMBER

By Bob Stinson

Haliburton Highlands
the heart of getaway country

"We stand on guard for... what?" is the title of an article written by Charles J. Munroe, President of International Harvester Co. of Canada Ltd. The article begins as follows:

"I'd like to get your thinking on how a product should be effectively marketed."

First, let's talk about the product itself.

It has everything going for it - including very strong competitive advantages. In fact, it has several very marketable unique selling propositions.

There are excellent growth opportunities. The domestic market includes every man, woman and child in the country. There is also excellent off shore potential.

The product has been around for a good number of years and has enjoyed strong acceptance. But, there now appears to be some decline in consumer confidence.

It's not quite clear why that's happening - especially when you consider the product's strong positioning in the marketplace.

Perhaps consumers haven't been given enough information about the product and its competitive advantages. Or, it may simply be an image problem.

I think you'll agree this is an interesting marketing challenge...and all the more so because there seems to be no good reason why it should be a challenge at all. I know many of us would feel sure of success if we were marketing a product with so many competitive advantages.

The product, as you may have guessed, is Canada.

The challenge?

To sell ourselves on a country that is for so many reasons the envy of the world.

To restore pride in our achievements... confidence in our future... and belief in our nation."

He goes on to compare Canada with Japan which is small, overcrowded and must import most of its food, all of its oil, as well iron, coal, nickel and other resources on which its economy is built. The one thing they don't have to import is confidence in themselves as a nation, and a commitment to a National Goal.

There is an urgent message here that if we are to survive as a nation in a competitive world we have got to start pulling together as a nation instead of pushing apart from within. The same philosophy applies to Haliburton County. If we are going to continue, in this county, to

fuss and worry about which municipality or village gets certain plums of progress, then that progress and development will elude us.

Both the Chamber and the Economic Development Commission have a mandate to work on behalf of the entire County. To do their job they need a commitment from the entire county, and the realization that no matter where their immediate efforts are being expended the whole county can benefit from the results.

Could our county-wide New Year's resolution not be to search for ways to all pull together for the future?

New in the community

We are most pleased to welcome Jan and Jane Oudenampsen as the new owners of Pine Ridge Resort at Miner's Bay. They have not yet moved onto the property as there are no winterized facilities there as yet so are temporarily renting a home in Kinmount. They plan on many improvements and are looking forward to meeting with other members of our community.

Did you know that Silver Birches Resort on South Lake has a ceramic shop on the premises. Everything from finished work to basic supplies, and if they haven't got it they'll get it for you. Drop in and see.

Regrets

We were very sorry to hear that Cam Carrie passed away last week. Cam had lived here only a few short years after purchasing Mark Vasey's Insurance Agency and Peter Currie's beautiful home overlooking Haliburton Village. He will certainly be missed by all the friends he made here in that short time and our sincere sympathy goes out to Eleanor and the family.

Wilf Lahay was very ill last week but is now responding well and we are pleased to hear he is resting comfortably at Minden Red Cross hospital and hopes to be home for Christmas.

Minden hosts Denmark

The Minden Minor Hockey Association is very much looking forward to hosting a midget team from Denmark on Tuesday, January 6. The local midgets will be taking them on in an exhibition game at 8:00 p.m. at the arena and everyone is encouraged to come out and welcome our visitors.

A very merry Christmas and a prosperous New Year to everyone on behalf of the Chamber and its staff.

Manpower is the problem sergeant tells council

Sergeant Bill Bailey of the Minden detachment of the Ontario Provincial Police has reiterated the need for increased manpower if the force is to meet all the requests for police services in the county. The sergeant was speaking at the December 17 meeting of Anson, Hindon and Minden Township council. He attended the meeting to introduce himself to the new council and discuss their concerns about policing.

Bailey told the meeting that the OPP has maintained the same number of men in the force across the province since 1972. This "zero growth" situation, where only those retiring or leaving the OPP are replaced, has placed increased pressures on those

still serving. He noted that certain kinds of crime have increased and there has been an increase in the population, but the manpower of the OPP has remained virtually the same.

He told the meeting that the present detachment consists of 19 constables. He noted that a number are involved in specific tasks, such as community service officer or court officer. The local detachment must provide its own radio operators from the detachment staff as well. "With sickness, vacation time, and men taking training courses in Toronto, it leaves us with very few men to cover the county," the sergeant commented.

He said his supervisor in

Peterborough was aware of the problems in this area, but there was little hope at this point that extra manpower will be forthcoming for the detachment.

He told the meeting that County Council has drafted an appeal to the Ontario government for increased police manpower for the area.

Commenting on other concerns of the councillors, the sergeant told the meeting that while Haliburton Village would be a better location for the detachment from a geographic stand point, there was "no danger" of the office being relocated. He said the possibility of the detachment opening a sub-office in that community was also slim. He noted such an office would require extra manpower. He pointed out however that the offer by the municipality of Dysart et al of office space and a garage could have a bearing on the creation of a sub-office sometime in the future.

Bailey told the councillors that he cannot tell the members of his detachment where they could reside. This comment was made in response to a suggestion made earlier this month that having several constables living in Haliburton Village might have an impact on the number of incidents of break-ins and vandalism experienced in that community.

The sergeant said one area of concern for his detachment is the increased use of illegal drugs in the county. "The schools in the county have been running a 'tight ship' as far as drugs are concerned," he told the meeting, "but that just means the problem has been moved to other locations, the street, the school buses, hotels."

Bailey said he understood the concerns of businessmen in Haliburton following a recent number of break-ins. However, he pointed out that statistics showed Minden and Haliburton had almost an identical record with regard to those sorts of incidents. This, he pointed out, was the case in spite of the fact Haliburton Village had a greater population than Minden Village.

Hearing dates

The Ontario Municipal Board has scheduled two hearings for the Minden area in the next few weeks. The schedule was announced at the December 17 meeting of Anson, Hindon and Minden Township Council.

A hearing into the creation of a Business Improvement Area for the core area of Minden Village will be held December 29 at 1 p.m.

January 5 is the date for the second hearing, this one into the subdivision development on Soyers Lake, by Couchiching Real Estate Limited. That hearing will take place in the municipal council chambers.

Charge for water

(from page 1)

proceeds from the tap on a 50-50 basis with the municipality.

The spokesman estimated the tap would cost \$350, with installation an additional \$100.

Jackson pointed out that the residents of the village are paying for the water service in the community, but yet water is available free of charge to anyone using the tap.

Deputy Reeve Doug Pritchard disagreed with the plan. He said that many of the users are citizens of the municipality although they may not live in the village. "These people get very little for their taxes. At least we can provide this service," he commented.

Councillor Ed Pergolas described the plan as "small potatoes" and he questioned whether the municipality had the authority to share income from the sale of water with the fire brigade.

Councillor Lyle McKnight told the meeting that he had been informed that during the summer up to 20,000 gallons of water had been drawn from that tap in one day.

(Editor's note: This figure appears to be inaccurate if the previous estimate of Mr. Jackson is believed. He said about five gallons of water could be drawn from the tap

in one minute. If that is indeed the case, the maximum number of gallons which could be taken from that tap in one day is 7200; 1440 minutes per day times 5 gallons per minute.)

McKnight stated that large motor homes have been observed filling their water tanks at the tap and that some individuals wash their cars using water from the tap. The councillor noted that the meeting had earlier considered the financial problems of the water system and suggested this might be one way of cutting costs.

Jackson noted that in certain cities in Mexico portable water is a luxury and individuals must purchase it by the bottle. Reeve Lloyd Walker said he was aware of locations in the south where water sold at a dollar per gallon. Jackson noted on summer weekends the tap is always in use.

Pergolas commented that people are not going to be pleased to have to pay for water. He said he was unaware of any other municipality where a charge is made for water from a public tap. "I wouldn't want Minden to be the first," he said.

Pritchard noted that many of those using the tap also spend money with local merchants. Pergolas predicted the business people of the community would likely object to any plan to charge for the water.

By-law Enforcement Officer Dick Schell noted that during the summer children often play at the tap or it is left running all night, causing a waste of water. It was suggested that a spring loaded tap be installed for the summer months to help control this problem.

No decision was taken on the matter and it was suggested it be brought back to the council table in the new year for consideration.

Causeway

(from page 1)

proposal," Councillor Lyle McKnight stated.

At the same meeting the council was informed that the Ministry of Transportation and Communications would subsidize soil tests on the causeway. The amount of the subsidy is 65%. However, the MTC letter noted that this subsidy did not imply that funds would be available for installing new culverts.

Tender - Caretaker

The municipality of Anson, Hindon and Minden requires a caretaker to clean the municipal offices and public washrooms beginning January 1, 1981, and the Cultural Centre later in 1981 upon its completion.

Cleaning supplies and equipment are supplied by the municipality.

Sealed tenders, clearly marked as to contents, will be received by the office of the undersigned until 5 o'clock p.m. Tuesday, December 30, 1980.

'Oversight' negates bid

The fact that a tender for electrical work at the new Minden library was not considered in late November has been described as, "an oversight on council's part," by Deputy Reeve Doug Pritchard. He was responding to a complaint made at the December 17 meeting by area electrician Barry Stewart, operator of Minden Electric.

Stewart appeared before the council to voice his concern over the council's action. He claimed that

people reading reports of the tenders received would believe his bid was 20% over the lowest price. He said this was not the case since a number of items were changed in the tenders which were accepted, substituting less expensive material.

The contract for installing electrical services to the new building on Bobcaygeon Road North was awarded to Alex Little Electric at an amount of \$5,965. Little and a third bidder, Bill Payne, were on hand November 27 when the tenders were opened for inspection. Considerable discussion took place at that time with regard to the quality of material and light fixtures to be used and other matters affecting the price quoted in the tender. Stewart was not in attendance.

Councillor Lyle McKnight noted that a phrase in Stewart's tender submission,

"underground cable not included" caused some confusion at the time. Stewart said the phrase referred to the service line from the Hydro pole while the council had interpreted it to mean the underground service connecting the old library which is to be located at the rear of the property. McKnight stated that it was this phrase which caused the council to consider the Stewart bid was incomplete and not consider it in the final deliberations.

Stewart said the public should be made aware that his bid was not 20% higher than the one accepted, because of the changes made during the discussion that took place when the bids were opened. He agreed with Reeve Lloyd Walker that there was nothing the council could do about the matter now, as the contract was already awarded.

Appointments approved

Anson, Hindon and Minden Township council has approved a number of appointments to committees under its jurisdiction. The appointments were made at the December 17 meeting of the council.

Among the appointments made by the council were:

-to the Minden Cemetery Board for 1981, Deputy Reeve Doug Pritchard, Councillor Larry Cummins and members of the community Gord Monk, Al Rogers and Jeanette Payne.

-to the Minden Recreation Committee, Councillors Lyle McKnight and Edward Pergolas, and Ken Bannon, Dean Elliott, Bob Woods and Elinor Burke. The council is still searching for a resident of the Ingoldsby area to serve on the committee.

-to the Library Board, Reeve Lloyd Walker, Irene Moore, Shirley, McGee, Mae Wolfraim and Harold Morgan.

-to serve as fire wardens for 1981, for the three townships, fire chief William Jackson, Earl Kent, Albert Cox and Dick Schell, Brady Lake - Allen Austin; Pine Springs - Hugh Lester; Bethel area - Bruce Nesbitt; Highway 121 and Ingoldsby - Gord Darby.

The council also named members to a number of internal working committees. These appointments included:

-to the property, sidewalks and streetlights committee Deputy Reeve Doug Pritchard and Councillor Larry Cummins.

-to the by-law committee, Councillor Ed Pergolas.

-to the roads and parks committee - Councillor Lyle McKnight and Reeve Lloyd Walker.

-to the water and sewer committee Reeve Lloyd Walker and Councillor Lyle McKnight.

-to the fire committee Deputy Reeve Doug Pritchard and Councillor Larry Cummins.

-to the ambulance committee Councillors Ed Pergolas and Larry Cummins.

Shift the drift - let the wind remove your snow problem

Snow-drifts are not only an inconvenience to country dwellers but they can also mean days of isolation and damage to their farm buildings. Careful planning, however, can prevent snow management problems.

"The main snow problems in rural Ontario are blocked lanes, failure of farm roofs, snow in open-front buildings, and drifting snow in farmstead yards," says Professor Frank Theakston, University of Guelph engineer.

At the University of Guelph, engineering research funded by the Ontario Ministry of Agriculture and Foods uses water to find the solutions to the many snow management programs.

"We place a model of the farmstead in a tank and allow water to flow over it to simulate wind. We then add silica sand to simulate snow," explains Professor Theakston. By rotating the model, engineers can predict the effects of snow and wind from any direction, and provide solutions.

The easiest way to control snow is to prevent it from getting near the buildings and lanes. For example, roof ridges of buildings should be in line with prevailing winds. In Ontario, most prevailing winds come from the northwest or west. Near the

Great Lakes, prevailing winds come from the south or southwest.

"You can correct problems around existing buildings using simple, inexpensive devices such as snow fences," says Professor Theakston. "For maximum effectiveness, locate fences at least 10.6 metres (35 feet) away from the building or lane, on the side of the prevailing winds. In snow-belt areas, place two parallel lines of snow fences about 10.6 (35 ft.) apart."

Trees provide the same protection as snow fences if they are located properly. Plant coniferous trees with trunks 1.2 m (4 ft.) apart and 10.6 m (35 ft.) back from the windward side of the lane, for adequate and aesthetic protection. For extra protection, plant two rows of trees, alternately spaced.

"A row of trees on the leeward side of the land doesn't help snow control and may contribute to drifting," says Professor Theakston. "The leeward row should be planted 10.6 m (35 ft.) back from the land to prevent the snow from trapping between the tree rows."

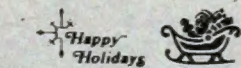

Prevent snow from blocking lanes by using trees or fences, and by regular plowing. Pile snow on the leeward side of the farmstead to prevent further drifting.

Open-front buildings are

often constructed with the front facing south, southwest, or southeast. Prevailing winds come over the back of the building causing a suction problem. Snow and drafts are drawn into the front opening causing extra work for the farmer and discomfort for the animals.

"Swirl chambers, located on the windward side of the building, are a solution to the open-front problem," says Professor Theakston. "This fence, 4.8 m by 4.8 m (16 x 16 ft.), will cause turbulence and effectively break the wind's energy; the snow then drops in the swirl chambers rather than inside the building or exercise yard."

Farmers who need advice on difficult snow management programs can write to Professor Theakston, School of Engineering, University of Guelph, Guelph, Ontario, N1G 2W1.

Toronto-Dominion Bank

and

The Canadian Imperial Bank of Commerce

wish to announce their banking hours for the holiday season.

December 24, 1980 - 10 a.m. - 4:30 p.m.

Small potatoes

The suggestion that a charge be levied for access to water at Minden's public tap is ill conceived and will bring this municipality a great deal of ill will if it is carried out.

The proposal was made by the local fire brigade, through the chief, as a method of raising money for the municipality and the firemen's association. It involved placing a metered tap which would, for example, allow one minute's worth of water to flow for ten cents. The chief estimated about five gallons could be obtained in one minute.

The members of the Anson, Hindon and Minden council had mixed reactions to the suggestion and delayed making a decision until the new year.

While there may be some basis in claiming that those who are served by the water system in the village are in fact subsidizing the provision of water at the free tap, we doubt whether placing a meter on the outlet would have any measurable impact on water consumption or the costs incurred by the water system. There may be abuses as suggested by the chief, individuals who wash their car at the tap or who fill the water tanks of motor homes. If the council feels these incidents have created such a heavy drain on the system we suggest a sign placed by the tap requesting users to be considerate in the amount taken. And certainly, if the shortage of water occurs, access to the tap should be temporarily suspended.

We know the merchants of the community would be more than upset if a meter were installed. It was mentioned during the council discussion that the tap is in almost constant use during the summer months. These users are no doubt, seasonal residents, who, when they come to Minden to get their supply of water, also contribute to the local economy. We are sure the benefits these individuals bring to this community more than compensate for the drain placed on the water system.

The point was made during the meeting that many of the people who use the tap are also taxpayers in Anson, Hindon and Minden townships. They may not contribute directly to the upkeep of the water system, but they do add to the municipal coffers through their taxes. The free water tap is one of a limited number of services provided to these taxpayers.

There is also something repugnant about charging for potable water. If the council feels the tap is placing too heavy a burden on our water system, then it should be removed altogether. Charging 10 cents for 60 seconds of water will do little to enhance the reputation of this community as one that welcomes visitors.

Councillor Ed Pergolas was correct when he called the idea, "small potatoes", and the council should reject it immediately.

REPORT FROM QUEEN'S PARK

By John Eakins, M.P.P.

You will no doubt be aware that the Treasurer's mini-budget eliminated the 7% sales tax on furniture, many household appliances, building materials and new light trucks and vans. In fact there will be up to \$700 sales tax rebates on purchases of new light trucks and vans weighing 9,000 pounds or less.

These measures will apply until next June 30th. A new cabinet committee headed by the Treasurer will get \$750 million to spur economic and regional development during the next five years.

Also the government wants to mount a three-year program, starting by early 1982, to cushion the effect of sharp increases in home heating costs on people with low or fixed incomes. Rural Ontario Hydro customers will receive rebates totalling \$20 million next year to offset the high rates they pay compared to urban users.

Hydro grant

Liberal House Leader Robert Nixon commented that the already announced increase of 11.2% in rural hydro rates starting next year, and amounting to \$57 million, will more than offset the \$20 million rebate scheme in the mini-budget.

The Energy Minister stated that the grant would mean a \$35 reduction next year for a rural household using more than 250 kilowatt hours a month. However, the increase to take effect January 1 will raise the cost of using 1,000 kwh a month nearly \$5 to \$47.60.

Dangerous trucking

Changes in provincial law provide for fines of up to \$50,000 for anyone illegally trucking dangerous goods,

and will also make it possible for truckers to keep their licences to drive if they can prove medical conditions such as diabetes won't affect their jobs.

The Dangerous Goods Transportation Act will be enforced by provincial Transport Ministry officials and the OPP. Separate amendments to the Highway Traffic Act provide for greater flexibility in medical regulations.

Education bill

All parents of exceptional children will have the right to appeal school board decisions about placement of their children under a Liberal amendment added to a special education bill. The Minister of Education was initially opposed to a universal appeal mechanism, saying it would cause excessive litigation. However, she and her party decided to back the amend-

ment, which was opposed by the NDP.

Other matters

The Minister of Consumer and Commercial Relations is being pressured to produce documents on the tangled affairs of three financial companies. James Bradley (Lib. St. Catharines) charged the government with "using the sub judice rule to hide" possible government maladministration in matters affecting people's life savings. Pat Reid of Rainy River (Chairman of Public Accounts Committee) has stated that the government is being conned by consulting firms to the tune of \$4,742,000 more last year than they were entitled to under their original contracts.

County skunked in fish contest

Haliburton County lakes and anglers were not represented in the results of the Big Fish Contest for 1980. The lack of representation is noteworthy in that during the past few years local fishermen and lakes have figured prominently in certain classes. Last year, for example, Art Ouellette claimed the top prize for his 34 lb. 4 oz. lake trout taken from Drag Lake.

This year however, lakes south, east and west of the county were named in the top 15 of each category. For example, the top lake trout was taken from Baptiste Lake in Herschel Township near Bancroft. The successful angler was W. Parks of R.R. 5 Bancroft. His winning entry weighed in at 37 pounds even.

Other entries from adjoining counties included: a

seven pound large mouth bass caught by M. Kaye of Oakville in Balsam Lake in Somerville Township; an eight pound two ounce large mouth bass, the best in its class taken from Muskoka Lake in Bracebridge Township; a 25 pound, 12 ounce northern pike from the same lake placed 12 in its category; and a six pound, three ounce small mouth bass taken by P. Cremona of Brantford from Pigeon Lake at Bobcaygeon.

Winning entries in the nine classes win cash prizes ranging from \$150 for the heaviest to \$15 for those rated from 11 to 15 on the list.

The contest, sponsored by Molson's Brewery in co-operation with the Ontario Federation of Anglers and Hunters, is expected to be held again next year for its twenty-third season.

This message for the Christmas season was prepared by Rev. Douglas Miller of Minden United Church.

Once again it is the Christmas season and we plan our celebrations of good cheer. There are toys for the children and presents for our friends and family. Our decorations can be seen everywhere and there is feasting in every home.

However, there is another side to the Christmas story which we tend to overlook, but which the Bible has preserved. It is the anxiety and worry of an expectant mother having to make a journey in obedience to the laws of the colonial power that ruled the country and of how she was refused accommodation in all the local hotels, so that her child was born in a stable. Then there was the wicked scheming of King Herod and his wicked plot to destroy the child. The Bible story is relevant to our life situation.

This is a story of joy mixed with sorrow. It is a contemporary story. The Canadian Save the Children Society reports that of every three children born into our world, one will not live to see the fifth birthday. These children die not from disease, or accident, or birth defect but from starvation. Frederick Kaan expresses it in a modern Christmas carol.

"Tomorrow Christ is coming, as yesterday He came,
a child is born this moment, we do not know his name.

The world is full of darkness, again there is no room;
the symbols of existence are stable, cross and tomb.

To-morrow will be Christmas
The feast of love Divine.
But for the nameless millions
The Star will never shine.

New infants born in stables are crying for our love.

There will be no to-morrows for many a baby born;
Good Friday falls on Christmas when life is sown like corn."

This is not a message of despair, but a challenge! This tragic situation can be changed when public opinion changes. When ordinary citizens like you and I feel strongly enough about it, our governments will do something practical to change things. The rich nations of North America, Europe and Japan comprise about one third of the world's wealth and resources. Billions of dollars are spent on military machines and much of the aid that goes to the third world goes as military aid and much of our aid programmes are tied to the purchase of our industrial products and not to the eventual development of self-sufficiency for the people we say we are aiding.

Christian opinion can and must change this situation. The Christmas message of peace and good-will awaits our commitment.

Our Lord becomes incarnate in every human birth,
created in His image, We must make peace on earth.
God will fulfill His purpose, and this shall be the sign.
We shall find Christ among us as child or youth or man.

Our business community and our trade union leaders will sooner or later have to work for simpler living and the lowering of our expectations in order to save our world. The price of injustice is always violence and the insensitivity of the privileged is the greatest violence of all.

"But when the woes of sin and strife
the world has suffered long;
beneath the angel strains have rolled
two thousand years of wrong,
and man at war with man, hears not
the love song which they bring.
O hush the noise, ye men of strife,
and hear the angels sing."

A Christmas Prayer

O Lord Jesus Christ

You were homeless in the moment of your birth: look with mercy on the hungry and the homeless of our world today.

You were a fleeing refugee for political persecutors: look with mercy on all who are displaced by war or hounded by governments and forces who seek to deny them their freedom.

You were rejected by society, look in mercy on all who lack human friendship and love.

You still suffer with your people, look with mercy on us all.

PUCK TALK

A report on the week's activities for Minden Minor Hockey teams.

Atom

It was a close one for Minden Atoms Thursday evening but they just couldn't pull it out of the fire. They were defeated by Bobcaygeon 3-2.

Bobcaygeon held the lead until midway through the final frame when the local team came alive. Derek Allison scored from Jeff Francis and David Preston from Scott Russell, but the team just couldn't manage the third goal to even the score.

Pee Wee

They waited until the last minute, but the Minden Pee Wees didn't let the team from Fenelon Falls go home with a shut-out Saturday afternoon. Tom MacLeod notched the only Minden marker to break the shut-out with just 1:57 left to play in the final period. The assist went to Corey Davis. Final score, Fenelon 7, Minden 1.

Bantam

Beaverton failed to show for a game scheduled for Saturday.

Midget

Minden and Haliburton Midgets battled to a 3-3 tie Saturday at the Minden arena.

The first period was scoreless. In the second frame Haliburton opened the scoring as Kevin Warburton connected on a pass from Kelly Mitchell and Duff Mitchell. Minden evened the score two minutes later as Andy Pristol connected on a power play. Assists went to Eldon Bull and Ivan Ingram.

At the 12:16 mark Steve Smith scored for Haliburton with assists from Duff Mitchell and Scott Rae. It was a power play goal with the puck bouncing in off a Minden player.

Thirty seconds later Minden evened the score again, with Eldon Bull scoring from Andy Pristol and Greg Austin. Another power play effort.

Into the third period Minden took the lead when Ivan Ingram scored, unassisted. However, Kevin Warburton recaptured the tie for Haliburton scoring on a pass from Jamie Bennett and Duff Mitchell.

Juvenile

The Minden Juveniles over-powered the opposition from Fenelon Falls Friday evening in a penalty ridden game that saw players from both teams being ejected from the arena. The final score was Minden 14, Fenelon 3.

Kevin Shapiera and Shaun Silvers both picked up hat tricks in the contest. Shapiera also assisting in two other goals while Silvers assisted on

three others. The remaining Minden goals came from: Ed Davis with a pair; Warren Mann with two goals and an assist; Rick Choy scored once and assisted on two; Dave Lennie scored one and assisted on another; Les Booth with one and Bart Sedore nabbed a single. Assists came from Kevin Hamilton with a pair and Greg Carpenter and Craig Cowan with single assists.

One fan remarked that the penalties were, "Too few to mention."

By the end of the second period, Minden had lost too players with game misconducts and had a total of 40 minutes in box time.

The visitors played the final period with only five players and a goalie and in the last two minutes were shorthanded as they picked up another game misconduct.

Since both teams were assessed more than 36 minutes in penalties, the coaches will have to sit out the next game played by their teams.

The schedule

Hockey fans and players are reminded of the Rotary International Pee Wee tournament scheduled for January 2 and 3. There will be 11 teams taking place in two divisions. More details in next week's edition of The Times.

A reminder that the Minden Midgets face the Denmark Midgets in an exhibition game slated for January 6. Twenty players from Denmark, team officials and family members will be here for the game. The game will be played under CAHA rules.

This is definitely a first for Minden so let's fill the arena and support our team. Let's put Minden on the map!

Andersons mark 25th

A surprise party was held December 13 for Elaine and Wayne Anderson to mark their twenty-fifth wedding anniversary. The gathering was hosted by their family, Larry Anderson and Sherry and Bradley Gilbert. The party was held at the parent's home.

A mock wedding cake was decorated by Penney Hewitt.

The couple received many gifts and wishes for many more years of happiness. The highlight of the evening was a phone call from Mrs. Anderson's sister, Joy, and family in Atlanta, Georgia.

All those in attendance enjoyed a cold buffet.

Attending from out of town were Moyer and Penney Hewitt of Brampton and Harold and Yvonne Lapp of Peterborough.

Moose season dates announced for 1981

Moose hunting seasons for 1981 will be basically the same as those in 1980, Ontario's Natural Resources Minister James Auld announced.

Mr. Auld explained that hunters would again have to hunt in a party of two or three persons, and share a moose. This applies in the first part of the regular moose season when hunting pressure is greatest and most moose are harvested.

In addition, the regulations now require that a person killing a moose must immediately affix his seal to the animal at the site of kill together with one of the other persons hunting in a party.

As in 1980, once the seals are securely attached through the tendon on one of the hind legs, the corresponding moose licences became invalid.

This rule also applies when a moose is taken in the latter part of the regular season, or in a special season.

After October 31 of the regular gun season, and throughout the special archery and primitive firearms hunts, sportsmen may hunt alone and take one moose per licence.

The Minister said restrictive measures are needed to rehabilitate moose populations because the herd has not increased since 1975.

"The number of moose in most areas is less than the habitat can support," Mr. Auld said. "This has reduced both hunting opportunities and economic benefits."

"Although the shortened seasons will help to reduce the harvest, long-term plans include more predictable controls," the Minister added.

As announced by Mr. Auld on November 26, the new moose policy provides the most effective measures avail-

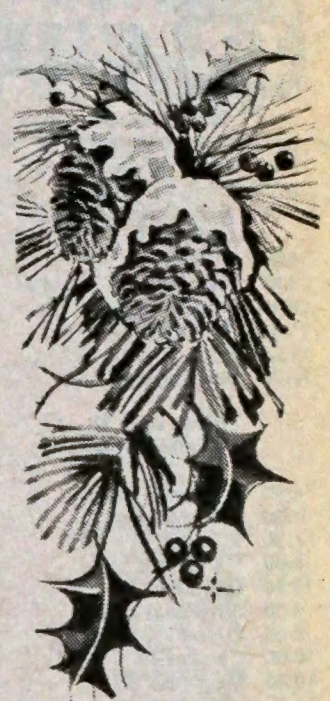

able for controlling the harvest, while allowing a reasonable level of recreational and economic benefits from moose.

He said control of hunter numbers in over-harvested areas will provide wildlife managers with one of the tools needed to deal with local conditions.

"When moose populations increase, we will be able to provide longer seasons. This includes both the moose-call-

ing season in September and snow-tracking later in the fall," Mr. Auld said.

For further information, moose hunters should review the hunting summary to be published in 1981, or contact their local district offices of the Ministry of Natural Resources.

Librarians hold Christmas party

Last Wednesday, December 10 at 10:30 a.m. twenty-five of the staff and Librarians from Haliburton County met at the County Office for their Annual Workshop. Chairman was Stan McDougall, County Librarian, and each Branch presented their fines and fees to go through the books. Stan asked us to read and study several articles in Ontario Library Review. Some reports of finances and the budget of the coming year were given. A question and answer time followed. Each Branch has some new books or other items to take home.

Mary Packard made a presentation to Winnie Schofield of Monmouth (Wilberforce) on her retirement. She was in the County Library System right from the start and knew all the details of this. She thanked us and said how much she had enjoyed her years in the library, but Bessie Croft quickly said Winnie would be called on part time or when they needed her.

After the meeting, all enjoyed a delicious buffet luncheon at PineStone and a visit with other librarians and staff.

Hyland Crest is a beehive of activity this week in preparation for the Christmas holiday season.

Monday, we had our regular fun and fitness program in the morning and crafts in the afternoon.

Later in the evening, several residents watched two very interesting films. "Newfoundland Scene" told us how people in this province look to the sea for their existence. Their main industry is cod fishing. In the wintertime dog teams travel miles over the frozen terrain from one village to another. Even the doctors use this method of travelling to visit their patients. We felt the excitement grow as we watched the capture of an eighty-ton whale.

"More Than a Red Coat" told the history of the R.C.M.P. We saw the severe training and discipline these men have to endure and after training the very dangerous work they perform. The symbol of the Mountie will never be forgotten. He is certainly more than a red coat. These two films ended with great applause from our residents.

Tuesday morning, we enjoyed an hour of Christmas Carol singing in the Chapel. It is nice to remember the true meaning of Christmas. In the afternoon, we enjoyed a game of bingo in the main lounge and later in the evening the organ music played by Fred Ballard.

Wednesday afternoon, the lounge was full of eager listeners enjoying the singing of

Minden W.I. marks Christmas

Wednesday, December 17 was the annual Christmas Party of the Women's Institute at Minden United Church with Mrs. Clare Brown in the chair. She read a verse "Christmas Jewel" and welcomed everyone. After the usual opening the roll call of Christmas verse was answered by 22 members and one guest.

There was a moment of silence in honour of our deceased member Mrs. Angus Coulter.

The card report was given by Mrs. Wm. Woore with 20 cards sent since the November meeting and correspondence and thank you notes were read.

There was discussion regarding someone offering quilt tops and these will be accepted. Also there will be plans made at our next meeting for a quilting bee to

the Allsaw Ladies Fellowship group. We all enjoyed an icecream cone at the end. In the evening the choir of the Minden Gospel Church came to sing our favorite Christmas Carols. The singing was beautiful and I would like to thank all these people for a very enjoyable day.

Thursday afternoon, there was a special tea party provided by our own Auxiliary. They served an abundance of delicious Christmas goodies. After the lunch Santa Claus and his two mischievous elves made their way through the home, giving out kisses and gifts. Each resident received a lovely gift which was purchased by the Auxiliary. This hard working group of people always make Christmas a very special time for our residents.

Friday afternoon, Mrs. Grace Coburn led us in the singing of Christmas Carols. Mrs. Krick who is a resident here accompanied us on the piano.

The residents have been presented with two new colour television sets from the donation fund. Everyone is thoroughly enjoying the new sets and it is particularly nice for the bed-care residents who spend a great deal of time in the nursing station area. It has given them a new interest in life.

On behalf of the residents and staff of Hyland Crest, I would like to take this opportunity to wish my readers a very Merry Christmas and a happy and prosperous New Year.

be at Lillie Hogg's home and this will be on the quilt top she has given us.

Mention was made of the spring bus trip and whether this might be to the new Wonderland Park near Maple.

Collections for card fund and pennies for friendship were taken and some ladies put birthday money in the box.

The meeting adjourned. Then all joined in singing of Christmas carols with Mrs. P. Clarke at the piano. Gifts were given out from the exchange table and for secret pals. All enjoyed the delicious lunch and a social time followed.

The next meeting will be at St. Paul's Parish Hall January 21 at 2 p.m. and all ladies in the area are welcome to come and join the group.

NOTICE IS HEREBY given pursuant to Section 1, Subsection 2, of The Expropriation Act of the following:

The Expropriations Act

NOTICE OF APPLICATION FOR APPROVAL TO EXPROPRIATE LAND

SCHEDULE

All right, title and interest in the lands described as follows:

1. In the Township of Dysart, Bruton, Clyde, Dudley, Eyre, Guilford, Harburn, Harcourt and Havelock, in the Provisional County of Haliburton, in the Province of Ontario, being:

(a) Parts of Lot 4, Concession 7, of the geographic Township of Dysart, designated as Parts 1 and 2;

(b) Parts of Lot 3, Concession 7, of the geographic Township of Dysart, designated as Parts 7, 8, 9 and 10;

on Ministry of Transportation and Communications Plan P-2217-66 deposited in the Land Registry Office for the Registry Division of Haliburton as Plan 19R-2166.

2. In the Township of Anson, Hindon and Minden, in the Provisional County of Haliburton, in the Province of Ontario, being:

1) (a) Parts of Lot 25, Concession 6, of the geographic Township of Minden, designated as Parts 2, 7 and 9;

(b) Parts of Lot 25, Concession 6, of the geographic Township of Minden, designated as Parts 10, 11, and 12, subject to the rights of Ontario Hydro as described in registered instrument Number 5010;

(c) Parts of Lot 25, Concession 5, of the geographic Township of Minden, designated as Parts 13 and 14, subject to the rights of Ontario Hydro as described in registered instrument Number 5010;

(d) Parts of Lot 24, Concession 5, of the geographic Township of Minden, designated as Parts 15, 17 and 18;

(e) Part of Lot 24, Concession 5, of the geographic Township of Minden, designated as Part 16, subject to the rights of Ontario Hydro as described in registered instrument Number 5013;

on Ministry of Transportation and Communications' Plan P-2742-38 deposited in the Land Registry Office for the Registry Division of Haliburton as Plan 19R-2177.

2) (a) Part of Lot 32, Concession 7, of the geographic Township of Minden, designated as Part 2;

(b) Part of Lot 26, Concession 7, of the geographic Township of Minden, designated as Part 14;

on Ministry of Transportation and Communications' Plan P-2742-34 deposited in the Land Registry Office for the Registry Division of Haliburton as Plan 19R-2178.

A print of Ministry of Transportation and Communications' Plans P-2217-66, P-2742-33 and P-2742-34 may be obtained upon request from the Manager of Record Services Office, Ministry of Transportation and Communications, 1201 Wilson Avenue, Downsview, Ont. M3M 1J8.

This Notice First Published the 3rd day of December 1980.

Ministry of
Transportation and
Communications

Ontario

IN THE MATTER of an application by the Minister of Transportation and Communications for approval to expropriate lands being: In the Townships of Minden and Dysart, in the Provisional County of Haliburton, in the Province of Ontario, for the purpose of widening and reconstructing King's Highway 121, and works related thereto.

NOTICE IS HEREBY GIVEN that application has been made for approval to expropriate the land described in the schedule hereto.

Any owner of lands in respect of which notice is given who desires an inquiry into whether the taking of such land is fair, sound and reasonably necessary in the achievement of the objectives of the expropriating authority shall so notify the approving authority in writing.

(a) in the case of a registered owner, served personally or by registered mail within thirty days after he is served with the notice, or, when he is served by publication, within thirty days after the first publication of the notice;

(b) in the case of an owner who is not a registered owner, within thirty days after the first publication of the notice.

THE APPROVING AUTHORITY IS

Minister of
Transportation and Communications
G.F. Wetherall
Regional Director
P. O. Box 3030
North Bay, Ontario
P1B 8L2

NOTES:

1. The Expropriations Act provides that,

(a) where an inquiry is requested, it shall be conducted by an inquiry officer appointed by the Minister of Justice and Attorney General;

(b) the inquiry officer,

(i) shall give every party to the inquiry an opportunity to present evidence and argument and to examine and cross-examine witnesses, either personally or by his counsel or agent, and

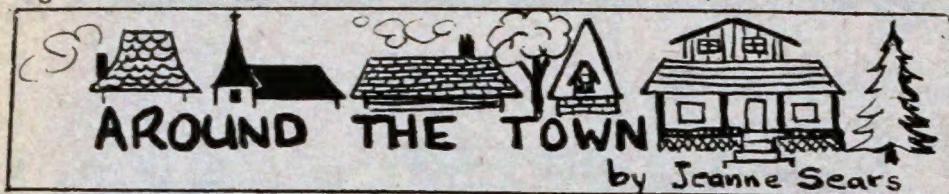

(ii) may recommend to the approving authority that a party to the inquiry to be paid a fixed amount for his costs of the inquiry not to exceed \$200 and the approving authority may in its discretion order the expropriating authority to pay such costs forthwith.

2. "owner" and "registered owner" are defined in the Act as follows:

"owner" includes a mortgagee, tenant, execution creditor, a person entitled to a limited estate or interest in land, a committee of the estate of a mentally incompetent person or of a person incapable of managing his affairs, and a guardian, executor, administrator or trustee in whom land is vested;

"registered owner" means an owner of land whose interest in the land is defined and whose name is specified in an instrument in the proper Land Registry or Sheriff's office, and includes a person shown as a tenant of land on the last revised assessment roll;

3. The expropriating authority, each owner who notifies the approving authority that he desires a hearing in respect of the lands intended to be expropriated and any owner added as a party by the inquiry officer are parties to the inquiry.

Reverend and Mrs. George Elliott of Mississauga, the new incumbent for St. Paul's Anglican Church, is coming to take up residence and his duties, which begin in the New Year.

True Christmas Spirit

During Christmas week our town was gleaming with goodwill. In the lobby of our local bank stood a handsome tree that greeted all who entered. When a tiny child and his mother pushed open the heavy door, the child instantly ran over to the tree, stretching his chubby arms up toward the bright decorations. He was so exuberant, he attracted the attention of all the bank customers.

A well-known matron of the community went over to him. "What do you want Santa to bring you for Christmas?" she inquired?

The boy studied her face for a long minute. "Nothing," he said quietly. "It's not my birthday."

Anon

Sincere sympathy goes to the families and friends of the late Irene Burns, William Lindsay and Cameron Carey whose funerals were this past week.

We have one "beef", why use snowmobiles in town? They are dangerous on the icy roads and some of them drove their machines over the fence and lawn in front of the post office. Also be sure and check the ice on our lakes, with all the snow cover, it might not be safe as yet.

We heard that Georgina Johnson, who was in an accident at Huntsville, was able to return home. Also, Joe Dollo is getting around a bit, but still in hospital.

Presents were brought to baby Jesus by the three Wise Men who followed the star. Scientists believe the star existed. Now everyone seems in our society to be looking for more and more costly things. Our tree which we decorate comes from the myth that on Christ's birthday all the trees in the forest bloomed and bore fruit. This also comes from the idea of re-

birth. This is only recently done, since 16th or early 17th century in Germany, and probably was brought in by Martin Luther.

The first one in England was given by Queen Victoria at Windsor Castle when Edward the Seventh was a baby.

Now in large cities a giant tree is set up and many make a special trip to City Hall Square in Toronto to see that one. One winter, a tree from our area was set up down there.

Candles came from Greek feast of Light and the Japanese have this festival as well. The Irish put candles in the window to invite priests in for Mass.

Singing Carols started in England, where dancing was first associated with the season, brought there by the Roman soldiers. Now carolers usually go out in most small communities.

Santa Claus has many names as is suited to the nationality.

Our festive season years ago was more sedate with the Puritan Fathers but this has changed into a season of fun and festivities.

Bill Jackson from Calgary is home for the Christmas season, visiting with his family the J.O. Jacksons and friends, and here to enjoy the local festivities.

Just two people who have birthdays at Hyland Crest Senior Citizens Home in January and these are, January 1 Doris Vaughan and January 2 Hugh McEachern.

Best wishes to them.

At the Mini Card Party last Thursday afternoon at St. Paul's Parish Hall, winners were: for cribbage Vera Ward and Nettie Wilson and for euchre lone hands, Bev Johnson (on a cut) and Shirley Elcome and Mary McKelvey. The next card games will be on January 8 at 1:30 and everyone is welcome. There was a tasty lunch and before leaving all sang "We wish you a Merry Christmas".

Thought of the season: The nicest thing around a Christmas tree is a family...all

wrapped up in each other.

Congratulations to Edith Russell who won the jackpot of \$250 in 57 numbers at the final Rotary Bingo, this was on Thursday evening and many people won turkey vouchers, but guess I'll have to buy mine. The bingos resume in March.

December 26 is Boxing Day, also feast of St. Stephen, the first Christian Martyr. This is a bank holiday and was the day boxes were given to errand boys, postmen and others who get tips.

In parts of England, parishoners go 'Stephening' which is a visit to the vicarage for bread and ale. Here it is a day when most families meet and have a good visit and most stores are closed.

Christmas At Home

The day should begin or end with Christmas carols with family gathered about the piano. Whether Christmas tree or stockings hung, let us be happy.

Children will soon ask Is There a Santa Claus? I'm sure there is. He puts kind thoughts into people's hearts to make them think of gifts for those they love and for the poor and needy in memory of the Christ Child to whom the wise men brought gifts. He is the spirit of Christmas. It is not everyone who realizes that Santa Claus only tends to play a part to children which we as adults ought to continue to emulate. It should be a joyous, carefree time and mothers ought to be spared all worry by the family.

The message of Christmas is love - God's love for us.

The spirit of Christmas is love - our love for one another.

As I'm of Scottish descent will add this.

May love be ever in your heart
May joy be yours to share
And wherever your dreams lead you
May contentment meet you there!

Coming events are: Skating on December 30 in the afternoon. Look for posters.

Take care. Cheerio until next time.

Hi! We have lots and lots of snow for Christmas, the only problem, shovelling the dirty white stuff.

Bruce Bagshaw and his daughter, Shelly, from Toronto, were up visiting in the area and dropped in to visit with the Dunsfords for a few hours.

Sorry to hear Ken Bowron has been under the weather, but is now on the mend. Hope you are feeling better for the holidays, Ken.

The Kliens from Toronto were up visiting in the neighbourhood for a pre-Christmas get together.

Mr. Angus Coulter and his son Gerald were visiting in Kirkfield.

Ken and Jeanne Bowron visited the Jim Bacon's at Kinmount for an evening.

Sorry to hear of the passing of Mrs. Irene Burns. She had been living in Hyland Crest for the past while. Our sympathy and prayers are with her family.

Clare and Dianne Wright from Mississauga were up on the weekend enjoying an early Christmas with Clare's parents.

Kinmount Klippings

by Pat Shorter

They say no news is good news...and that's precisely what I have for you this week.

A combination of a cold that just won't go away, a short news week, (we're two days early because of the holidays), and I guess just the rush of the season has left us with little to say except...

We'd like to wish all our readers, especially those in the Kinmount area, greetings for a very merry Christmas and a happy and prosperous New Year.

Lines from Lutterworth

by Jean Lacey

Lutterworth Township Council and staff held their Christmas get together at Forest Echo Motel. Mrs. Olive Meyers prepared a very enjoyable meal. A good time was had by all.

Christmas Prayer

As Christmas candles glisten
And church bells ring once more,
May happiness surround you,
Peace knock upon your door.

As trees are gay with tinsel
And Santa Claus appears,
May all the joy of friendship
Be yours throughout the years.

As well-remembered carols
Ring out upon the air,
God bless and keep you safely...

This is my Christmas prayer.
Hilda Butler Farr

Hint of the Week

Before opening packaged cake, keep icing from sticking to cellophane wrapping by running cold water over the package. (Make sure, first, that there's no break in the wrapping, or you'll have a soggy cake.)

A smile is a powerful weapon, you can even break ice with it.

Kids Korner

Well kids, Christmas will soon be here. I hope you have been good, I have, so Santa will bring me lots of presents (I hope).

Hope all were able to visit the museumobile while it was here for a couple of days. It was well worth seeing.

The Animals' Christmas

Do you know that the animals in the woods celebrate Christmas too? On one particular Christmas Eve, a little fir tree stood in a clearing, its branches shining with snow and bright with icicles. The plain little fir tree had been changed magically into a beautiful Christmas tree.

At midnight, all the animals crept out of their dens. They gathered around the fir tree and began to dance. On and on they danced, exchanging fond Christmas greetings in their secret animal language, and joining hands in the spirit of Christmas.

Christmas is when millions of turkeys go to their final roasting place.

Why do trains never run on time?

Because they run on tracks

Why couldn't the church tower keep a secret?

The bell always tolled

How do you catch a monkey?

Hang upside down in a tree and make a noise like a banana

Hope all you kids have a Merry Christmas.

Take it easy. Bye for now. God bless till next time. Merry Christmas to all.

"WHERE THE ACTION IS"

THE CORPORATION OF THE TOWNSHIPS OF ANSON, HINDON and MINDEN NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BY-LAW OF THE CORPORATION OF THE TOWNSHIPS OF ANSON, HINDON AND MINDEN TO STOP UP, CLOSE AND CONVEY THAT PORTION OF THE TRAVELLED COUNTY ROAD NO. 2 SITUATE IN LOT 1, CONCESSION 1, TOWNSHIP OF ANSON.

NOTICE IS HEREBY GIVEN, pursuant to Chapter 284, Sec. 443 of The Municipal Act, R.S.O., 1970, as amended, that the Township Council of The Corporation of the Townships of Anson, Hindon and Minden proposes to consider and if deemed advisable, to pass at its regular meeting to be held at the Council Chamber, Minden, Ontario, on Wednesday, January 14th, 1981, at 9:00 a.m. a By-law to Stop Up, Close and Convey the following:

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the Township of Anson, in the Provisional County of Haliburton, being composed of part of Lot 1, Concession 1, in the said township, and which said parcel or tract of land is more particularly described as follows:

PREMISING that the bearings herein are astronomic and derived from Plan 19R-940.

COMMENCING at an iron bar which is distant 422.02 feet measured on a course of North 66 degrees 17 minutes 10 seconds East from an iron bar in the Westerly limit of the said Lot 1, which is distant 632.0 feet measured Northerly thereon on a course of North 20 degrees 51 minutes West from the South Westerly angle thereof;

THENCE North 35 degrees 48 minutes 30 seconds East, 127.98 feet to an iron bar;

THENCE North 66 degrees 53 minutes East to a point in the inner limit of the original allowance for road along the Northerly shore of the Gull River;

THENCE Southwesterly along the aforesaid inner limit to a point where same is intersected by a line drawn through the Point of Commencement on a course of North 66 degrees 53 minutes East;

THENCE South 66 degrees 53 minutes West to the Point of Commencement.

WHICH SAID parcel or tract of land may be further illustrated, shown in heavy outline on a sketch by Paul Wilson, O.L.S., dated August 18, 1980, and may be examined at the Municipal Office of the Townships of Anson, Hindon and Minden at Minden, Ontario.

AND TAKE FURTHER NOTICE that before passing the said By-law at its meeting to be held at the time and place above mentioned, the Township Council of the Corporation of the Townships of Anson, Hindon and Minden shall then and there hear in person, or by his Counsel, Solicitor or Agent, any person who claims that his land will be affected by the said By-law and who applies to be heard.

DATED at the Municipal Office of The Corporation of the Townships of Anson, Hindon and Minden, this 10th day of December, 1980.

Elinor Burke, A.M.C.T.,
Clerk of the Corporation of
The Townships of Anson, Hindon
and Minden.
